"Son Of A Star"

Usual road, the same path
i'm walking automatic
look at the sky, over my head
there's no light on me

I want to say
I want to scream
heaven!

Ain't no stars tonight

Ain't no stars tonight
son of a star does not exist

I want to say
I want to scream
heaven!

sound of silence wanna sleep tonight
too much stuff in my head
Are u next to me hope that i could be
i'm alone in this night

Ain't no stars tonight
son of the star does not exist

Lights are turning on, the dark escapes
I know this is my star
Look at the sky over my head
I know this is my star

Ain't no stars tonight
