They say they know how it's gonna end
and there's no stopping it now
I just don't know, but they keep selling it
I think we know who's to blame

They've got
Money in their pockets and they're asking for more
and my soul doesn't seem enough
I just know, I'm not falling for it
I'll live my life the same

But it doesn't change anything
When we're asking for it

Oh no we're all gonna die(x4)

And there's this man on the television
He thinks he knows the way
He's got his hands on a rocket and his neck in a noose
He's gonna blow us away

But it doesn't change anything
When we're asking for it

There's no stopping it
Oh no we're all gonna die(x4)

Oh no we're all gonna die there's no stopping it now
Oh no we're all gonna die there's no stopping it now

There's no stopping it
Oh no we're all gonna die
