Lay back  
girl, let your hair down  
Come on baby loosen up that button, let in the air now  
Take this as an invitation  
To a mind and body, my body to your body sensation

Relax, just close your eyes now  
You gotta give in to that movin', I lead your follow, yeah  
Get down, only to get back up  
I got the tightest grip, you can't slip trust me  
ain't no body, just you just me  
I would do anything to ya  
I said anything

Anything (you wanna do) 8x  
Anything...anything

Feel me, get a little bit closer baby  
In fact, I get so close that we're almost melting over  
Tell me how you want me to touch you baby  
As a matter of fact, don't tell me at all

Cause we put the move in, but slowly, easy now  
We could do anything

Anything (you wanna do) 16x  
Anything...what ever

Hold on, I ain't done girl, come on

Anything (you wanna do) 8x  
Whatever you want me to do baby, yeah  
said whenever, whatever
