Maybe I'm mistaken, or did I see it right?
was that you in the corner, looking at me all night?
So nice to meet you, I thought I'd come up and greet
you
Hey, how ya doin'? what's your name?

I don't mean to be too straightforward, but I can't help
myself
It's you I wanna be with from now on

I can't help but thinking we could just get along you see
And we don't even need to be best friends
cause I can't help but thinking we could just get along
you see
and we don't even need to be best friends

Oh, I could be mistaken, but you and I've got a thing
Oh energetic, dynamic, extravagant, hot connection
See you won't ever meet somebody better baby
At least nobody better who will matter baby

I don't mean to be too straightforward, but I can't help
myself
It's you I wanna be with from now on
And no one can believe what's going on, yeah
I can't help but thinking we could just get along you see
And we don't even need to be best friends
cause I can't help but thinking we could just get along
you see
and we don't even need to be best friends

I can't help but thinking we could just get along you see
And we don't even need to be best friends
cause I can't help but thinking we could just get along
you see
and we don't even need to be best friends

Let's go, let's go girl, let's go, let's go girl (Repeat)
I can't help but thinking we could just get along you see
and we don't even have to talk or nothing
I can't help but thinking we could just get along you see
and we don't even need to be best friends

I can't help but thinking we could just get along you see
and we don't even need to be best friends
No nothing like that baby
I can't help but thinking we could just get along you see
and we don't even need to be best friends
