

## Alain Clark "Generation Love Revival"

Visit "[Generation Love Revival](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Look into the mirror everything about me is blurry  
Thinking to myself 'is this a good reason to worry?'  
And if you got the answer, tell me was my question  
right  
Should I worry about the facts or let my heart decide?  
If I'm

Generation love revival  
I'm a part of it, part of it  
Generation love revival  
Yeah we're starting it, starting it  
Generation love revival  
Yeah it's happening, happening  
Generation love revival

Everybody's secrets, all out in the open now  
No inhibitions, no false optimism allowed  
Can't get away with murder, murder, oh, oh  
Walking 'round the planet carrying one burden, oh, oh

Generation love revival  
I'm a part of it, part of it  
Generation love revival  
Yeah we're starting it, starting it  
Generation love revival  
Oh it's happening, happening  
Generation love revival

Pete Philly:

Riddle me this brother and sis  
Listen would you miss  
Any of this system if it was dissed and gone  
Traveling to places thought long gone  
A whole new paradigm, ain't nothing wrong  
With a little more freedom song  
A little less blues, a little more food for thought  
and the spirit when you hear it  
Yes you'll get caught the minute when you hear it  
and the fear just leaves  
Like the Fall makes room for the Winter  
and since we're here to achieve

going out and removing the splinter  
from the third eye of the beholder  
got you a shoulder to cry on  
new generation relies on his and my songs  
here's to the future  
bygones are bygones

Generation love revival  
Generation love revival  
Generation love revival  
Generation love revival  
(2x)

Pete Philly:  
we need to take a chance  
to let go of the negative stance  
burry the lance and dance in the rain  
perception of what a woman or a man is  
needs to advance cause the chance is the same  
Things keep happening over and over  
don't you know we got a freaking four leaved clover  
in the pocket the day we was born  
Guess we forgot but you know that  
I've sworn to take it out, live it out like Clark  
Focus on the light not the dark side of things  
About to embark on a rated R type movie  
most of the things we need is indeed inside  
put it on black let it ride  
if you just show who you really are, no need to spar  
and there's no need to hide

Generation love revival  
Generation love revival  
Generation love revival  
Generation love revival
