It's about being like a leaf in the wind

I wish I could soak in the energy of the city that I live in (Amsterdam)

To every breathing thing around me I wanna give in Like a prostitute in the window I am ready and willing and like the old dude with the beard and the guitar I'm maximum chilling

It's about being like a leaf in the wind (light and open) it's about taking all the energy in
Then it's about bringing all that energy back
You gotta make it yourself good-life-living set

I wish I could take on another identity cause I would be stealing

Just that rush alone gives me a brilliant feeling I don't mind that art oldskool, sniff-o-ghetto vibe...I'm cool with it

I said art oldskool, sniff-o-ghetto vibe...I'm cool with it

It's about being like a leaf in the wind (light and open) it's about taking all the energy in Then it's about bringing all that energy back You gotta make it yourself good-life-living set

I want to see hypnosis I want maximum dosis You can take my soul cause I want to feel like moses I want to see hypnosis, I want maximum dosis You can take my soul cause I want to feel like moses

I wish I could soak in the energy of the city that I live in (Amsterdam)

It's about being like a leaf in the wind it's about taking all the energy in Then it's about bringing all that energy back You gotta make it yourself good-life-living set

We ain't joking around
