A Better Tomorrow

Every moment that we wasted  
It's a time we can't replace it  
If your life is just forsaken  
All your memories are taken  
Be aware that your life it's too short  
And we are changing everyday  
We will never be the same again  
After all we are just different

Many days  
Pass me by  
All this questions  
Don't know why  
Every second  
That I wasted  
All this lies  
I can't replace them

It's for a better tomorrow  
It's for a better time  
And IV been trying to tell you  
Tomorrow will be fine

IV been trying  
For way to long  
Just to fight  
Against the wall  
IV been asking  
For all your help  
But you are to busy  
With yourself

And IV been trying to tell you  
And IV been trying to many times  
And IV been trying to tell you  
Tomorrow will be fine
