Searching For That Someone...

Life is unfair
With myself
Not a single cry
Lets you be

Emotions are upside down
They don't see thru my mind

Only I can
Control myself
What I got
What I need

Searching for that someone
Is unlimited where I am / unlimited where I stand
I know if I keep searching
Ill find someone that understands / someone that
understands

Till I get that chance
To go where I wanna be
To fly where I can relate
To fly where I can relate

Searching
For that
Someone
I know I will
