Well now I know I'm just too far from home,  
But I can't go back right now.

And yes, I know that I need some help.  
No one's ever felt  
Like this before.  
Everything seemed okay.  
But now it's not  
And I'm stuck here in one spot...again.

And I'm dying this life  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.

And yes, I know I look like crap.  
It seems to make you  
Happy.  
Everything looked okay.  
Until you came down.  
And pushed me around.  
And pushed me around.  
And pushed me around.  
And pushed me around, and

I'm dying in this life  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.  
And I'm dying in this life  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.  
And I can't seem to get myself out now.

Well now I know I'm just too far from home,  
But I can't go back right now.
