"Superman"

Visit "[Superman](#)" on MotoLyrics.com

Fate finds a way, of pickin you up when you're down
I remember everything, and I know for sure
Ain't like it was before, I know I can shut
that door
I wanna be your superman
Won't you give me you hand
So I can show you

Let down your hair
And move on over next to me
I wanna see your skin, beautiful white, soft in the light
We'll just forget the past, we can have tonite at last

I wanna be your superman
Won't you take my hand
So I can show you
So I can show you
I wanna be your superman
I wanna be your superman

You can always lean on me
You can dress me to whatever your vision of a dream
man is
Oh my little baby, can't you see
I wanna be your everything

I remember yesterday, it's a long ways away
I don't know just what your gonna do
But I always wanna be right next to you
I always wanna be right next to you

I wanna be your superman
Baby, won't you take my hand
I wanna be your superman
