Destroyers of the world before  
Underneath a deeper realm  
Parallels in their shallow common ground  
Brings the destruction of their will

The racing minds of the sickened  
Holding fast to a world so vast  
Empty beings so convinced  
In the end is when their time begins  
Rivaled like none before  
Unchallenged in the face of hate  
Adorned with the tides of atrophy

Formed from the injected fallacy  
Faced with concepts of reality  
Beginning with the experiment  
Betrayal will come at the first sight of blood

In the trenches of corruption

Efforts to ignite the plan  
Undermining will has now unfoiled  
Deviation of their conflict demands  
Rising constant turmoil

Rivaled like none before  
Unchallenged in the face of hate  
Adorned with the tides of atrophy  
The fatal millennium--  
Exists!--  
Within their molecular minds  
A worldless philosophy--  
Transgress!--  
Against societies rise  
And the ills of technology--  
Resist!--  
Their formidable ties  
And the rise of our obscurity--  
Erase!--  
Their subliminal crimes  
Begin the tides of atrophy

Forced fed apocalypse  
Conspiracy denies truth  
Deceptive vows cannot be stopped  
Their lies feed the youth  
Caustic fashions become the trend  
To embellish the foolish engaged deep within  
Unidirectional patterns soon blend

Media blitz Propels their gain  
Brain wash tactics  
For a propaganda storm  
Destroyers of the world take hold  
Undermining will now takes control

FATAL! MILLENNIUM!!!!...
