From Iran and Iraq
To the shores of the Black Sea
Soon will be just a giant parking lot
"cause that's where a big park is gonna be
We're getting' rid of this terrorists
Make the world a better place
And there's pride in every American heart
As we say bombs away! Aaaa!

"cause I hate the damn terrorists
With the towels upon their heads
Go and find a place to hide "cause
Soon you will be dead so
If your camel will stand up
Haul ass, the bombs are on their way
But you won't find you a place to hide
"cause here comes the USA

Bin Ladin, Yasa Arafat
And old Saddam Hussain
Momor Kaduffy
Frickin' Itola! Aaaa!
All the rest of them damn towel heads
I can't remember all their names
Ya'll got a free trip to hell
On Nuclear Airlines USA

"cause I hate the damn terrorists
With the towels upon their heads
Go and find you a place to hide "cause
Soon you will be dead so
If your camel will stand up (damn!)
Go and hide, the bombs are on their way
But you won't find a place to crawl
"cause here comes the USA

And son o' bitches can kiss my balls
Here comes the USA! Aaaaa!
