They dwell beyond dimensions
Outside the sphere of a living realm
Escaping the binds of the universe
Watching beyond the unknown

Immortal inhabitants of eternity
Mortal minds cannot behold
Intricate patterns of insanity
Which we will never know

Your will becomes submission to creeping dark
aggression
Listen in terror the lights darkest contradiction
Besieged from all sides by this force that resides
Ruling the shadows beyond fields of sight
Subject to this madness resistance rendered useless
As you stand alone at the mercy of the merciless

[#1] Perceiving ourselves as endless
We choke on the sands of time
And as we fade into nothingness
Their memory of our being also dies

Beyond mortal comprehension
Outside our perception
Creeping aggression
Dark contradiction

Immortal inhabitants of eternity
Mortal minds cannot behold
Intricate patterns of insanity
Which we will never know

They dwell beyond dimensions
Outside the sphere of a living realm
Escaping binds of the universe
Watching beyond the unknown
