"Think About It"

Visit "[Think About It](#)" on MotoLyrics.com

Oh, sky falls orange into the sea,
Blood sun drowns to the calling of night,
Smashing the waves, slashing the waves, slashing the waves,
Grind a beat, grind a beat, grind a beat,
Slow repeat - think about it.

Think about it,
Think about it,
Think about it,
Think about it.

Verse two,
I taste salt, oh, I smell the sea,
I will remember you, will you think of me?
We're all gone...we're all gone in just a few years,
We're all gone - think about it.

Think about it,
Think about it,
Think about it,
Think about it.

Life is but a vapour,
Life is but a vapour,
Can you tell me, how long do we live?
This life...this life is but a vapour,
Can you tell me, how long do we live?
Think about it.

Think about it,
Think about it,
Think about it,
Think about it: this song.
