

Monstrosity "Rise To Power"

Visit "[Rise To Power](#)" on MotoLyrics.com

Behold the seize of power
Dark faction now prepared to strike
All opposition bleeds and cowers
Legion of darkness shall dictate its will
and rise to power

Denounce all gods and moral structures
crushing to dust the bones of those who question
The power of our convictions
The world has never seen such horrors

Eviscerate all false believers
Incinerate our social leaders
Kill and rape those who seek the light
on virgin blood we thrive
Remove the tongues of those who speak out
Tear out the eyes nothing else is seen
Cut the throats and let them bleed
on human life we feed
Rise To Power
Rise To Power
