- DILDO WARHEADS

Through the times I've been considered a whore
Everybody's wanting me to score
The future doesn't bring much good they say
So a whore is just what I would like to play
Don't you call me here (several times)
Here is where I'm making you feel down
My own little space of underground
Calling you things you won't appreciate
Here's where I let go my piece of hate
Don't you call me here (several times)
This is where I'm loved among the girls
My hormones and my seed will have to whirl
No blushing here I'm feeling cool
Here is where I get my dark side tooled
Don't you call me here (several times)
