

Darkening "Frozen Time"

The Journey of dreams is for real
feel the senses, look inside
No fantasy to steal
Is this for real, or all in the mind

The essence no longer exists
Look in the mirror, your reflection is no longer there

Frozen time, light everywhere
is this for real, or fantasy
Peaceful light, so familiar
This is where you wanna be
No fears, never been here before
Everything is so beautiful here
Not able to compare

Far beyond the limits, seems like there's no way back
Reaching the border, you're body starts to shiver
Reality - inaccessible
Searching for a helping hand
Don't wanna go back to earth again
