No means no lie now find out what you get - you're no  
good

You'll sit around and throw a fuckin fit

We are here onto you

You're so far - you're fuckin gone

You won't get to me till you cover me

I don't need this shit till you cover me

No means no lie now find out what you get - It's all  
good

You'll sit around and throw a fuckin fit

We are here onto you

You're so far - you're fuckin gone

You won't get to me till you cover me

I don't need this shit till you cover me

We are here - Mother - in your fear with you

We could be perfect in your world I know

But I will come, I will come, and I will come Go!

I will come, I will come, and I will come

I will come, I will come, I will come, I will come

Disappear

You won't get to me till you cover me

I don't need this shit you fuckin liar
