"Kiss Your Man Goodbye"

You've had your way far too long, girl
& your kiss goes bittersweet
So you'd better change your way, girl
Or I'll walk out in the street
Oh girl, you'd better try to please me
Then kiss your man goodbye, goodbye

You can hang onto me, girl
If you cling with all your might
& when you whisper to me, love
It had better sound just right
Oh girl, you'd better try to please me
Then kiss your man goodbye, goodbye

(instrumental)

Every time I see you smile, love
It had better be at me
& don't let me see you cry, girl
That's the way it's gotta be
Oh girl, you'd better try to please me
Then kiss your man goodbye, goodbye
