[First verse]

To see this whole world without any color
You're missing beauty that's under the cover
You try to pull back but you just couldn't see it
Cause when it was there you didn't believe it

[Chorus]

And you never get what you want
If you don't know what it is [2x]
And you don't know what you want
But you know it's not this
Oh you know it's not this

[Second Verse]

The voices inside they're getting harder to hide
The phone is ringing the spirit is willing
But you just can't pick up what you have let down
Connecting this time has to happen some how

[Chorus]

And you never get what you want
If you don't know what it is [2x]
And you don't know what you want
But you know it's not this
Oh you know it's not this

[Bridge]

There is hope where you are going
There is a dream that has been spoken
There is beauty all around
Yeah, there is still beauty to be found
[Repeat bridge 2x]

[Chorus]

And you never get what you want
If you don't know what it is [2x]
And you don't know what you want
But you know it's not this
Oh you know it's not this
