No human mercy and no human heart  
creating violence of exciting sufferance  
ask him no reasons about his massacre  
just try to save yourself from his  
malefic power  
Core of Brutality  
a picture of war  
I'm searching last immortality  
Core of Brutality  
a picture of war  
I'm searching an onslaught of pain  
Rivers of blood in which he enjoys  
dinner of meat taken by his victims  
a mountain of madness is living in cruelty  
dimension of horror and not a simple dream  
Core of Brutality  
a picture of war  
I'm searching last immortality  
Core of Brutality  
a picture of war  
I'm searching an onslaught of pain  
How can I live this fear  
how can I oppress my enemy  
I don't see an escape  
so don't cry for my pain  
in my action last immortality  
sits here and waits for a better life
