Ohhhhh,  
I was in love with you  
I always needed you around  
But you know  
Just how the story goes  
Just one of your magical powers  
Never let go  
So tell me  
When did life turn around  
When did the moon fall down  
When did the spell start to fade  
No use in running like a fool  
I'm gonna use you like a tool  
And I'll be long gone in love  
So tell me  
Tell me when the fever ended  
I wanna be around  
I'll put a spell on love  
Tell me when the fever ended  
I'll make it right again  
No need to run for love  
Now you'll always be with me  
Not in my dreams  
But in reality  
Nowhere to run  
Nowhere to hide  
You're mine  
Baby  
Just for you I'm a fool  
But it's cruel to use what you know  
We're gonna be together (FOREVER)  
Oh Forever (TOGETHER)  
Tell me  
TELL ME  
When did life turn around,  
honey  
When did the fever start to fade  
Don't wanna be too late  
Oh-ohwoh now
