"You're Walking"

Visit "[You're Walking](#)" on MotoLyrics.com

You're walking
Through the city
But you don't know where to go
You're looking
For action
But it don't come flying no no
No no
You're never
in danger
And you don't know why that's so
You're looking
You're hiding
And it's all too much for you
And now you're in that frame of mind
Getting the exposure right
You are checking out the seconds
Now you're counting down the hours
From the street to the door
Woh-woa
You see your little baby walk
By
Round the corner, yeah
You see your little baby walk
Over
To the other side
You see your little baby walk
By
Round the corner, yeah
You see your little baby walk
Over
To the other side
You're walking
Through the city
But you don't know where to go
You're looking
For action
But it don't come flying no no
No no
You're never
in danger
And you don't know why that's so

You're looking
You're hiding
And it's all too much for you
And now you're in that frame of mind
Getting the exposure right
You are checking out the seconds
Now you're counting down the hours
From the street to the door
Woh-woa
You see your little baby walk
By
Round the corner, yeah
You see your little baby walk
Over
To the other side
Of the road
You see her walking
Oh lord
Oh noooohhhh
Sometimes you have to run
Sometimes you have to hide
Walking like a man
Ohwoh
