

## Evidence

### "Don't Hate"

Visit "[Don't Hate](#)" on MotoLyrics.com

[Intro]

Pack it up..  
..what the fuck?!  
(Did you get that?)

[Evidence]

I started my day great, don't hate what I do  
Instead get a plate, heh, don't hate my food for  
thought  
Don't wait, don't watch {"don't hate"} what I got  
Even if it's not what I wanted to view (okay)  
I'm first up to crack the blinds {"don't hate"}  
Racin time, in fact I love to smoke la-la-la  
They couldn't tell me nada, so I burned it up hot as the  
sun  
and came back a product of my environment's done

[Defari]

Yeah, yeah, {"don't hate"} the maker, the car  
They international - AH! Don't hate the actual star  
Killer than me and E-V? (Nope!) No question  
It's obvious, the homies are prosperous  
Watch them study and follow this (follow us)  
Got love {"don't hate"} where I'm at  
I never left, I holla, "Don't hate, hit me back"  
And now you seem bothered, don't hate, I'm runnin  
today  
I'm switchin my gates in London at 8

[Evidence]

One of the greats, passports stamped up, don't hate  
Wait a minute, listen, record spinnin, {"don't hate"}  
I-I play the game well, lanes change course  
Don't make the Change of the Guard  
My pen is like I'm in the pen far bangin these bars  
Back from the yard, small glimpse, don't hate freedom  
(no)  
Eyes lock you in so I stay at the beaches  
Fake chicks and leeches, I still {"don't hate"}  
I let 'em off, yellow car, then it's back to relate

[Defari]

Burn one before the wake up call  
{"Don't hate"} the rise and the fall, I outlast 'em all  
Don't hate the neighbor next door, I'm glad that she  
saw  
Don't hate the tree that he rolled, the bag that he  
bought  
The blunt that we blew, the courtesy call  
YEAH! Don't hate the live that I'm livin  
The gift I've been givin, don't hate the love for my  
children  
I'm wheelin and dealin, don't hate, the man is just  
grown  
He does for his own, he rest on the throne

[Chorus: DJ Revolution cuts and scratches]

"I got mine, so-" {"don't hate"}  
"I got mine, so-" {"don't hate"}  
"I got mine, so-" {"don't hate"}  
(Don't hate these haters at all)  
"I got mine, so I show no shame" - [MC Lyte]  
"I got mine, so-" {"don't hate"}  
"I got mine, so I show no shame"  
"I got mine, so I show no shame"  
(Don't hate these haters at all) "I got mine, so I-"

[Evidence]

Don't love some, {"don't hate"} either though  
Fall into a glaze on between I don't even know  
I'm no elitist but I flow how the people treat us (yeah)  
Needless to say I ain't walkin on pins and needles  
(neither)  
They can't figure it out, don't hate the recipe  
I slipped 'em ether (wow) I, don't hate them testin me  
The message is still here, no doubt just harder to find  
without Evidence, each time I'm part of the crime

[Defari]

Don't hate one, don't hate self never  
Eighty degrees in the sun, don't hate the LA weather  
(crazy)  
I live the meaning of fun, {"don't hate"} the travelling  
man  
with euros in hand for trees, in Amsterdam (do it)  
Don't get crazy, don't hate me neither though  
The way you actin right now, {"don't hate"} I'm glad  
you  
showed your true colors, can we drink one? {"Don't"}  
I'm late for my peo-PLE, gotta (Fly like an Ea-GLE)  
See youse when I see YOU!

[Evidence]

E, don't hate, no

The ratio, drop the hits without the radio

The lazy flow, spit quick, arrive slow {"don't hate"} the  
live show

The long line, the fact we on time, cloud control out my  
mind

I don't do lunch, don't hate the soloist

On my own terms of success, don't hate blowin it up

With chicks, no handcuffs, don't hate that

Let my birds fly last LP, some ain't came back

[Defari]

My hat says LA, {"don't hate"} the downshift

Watch the P car getaway, don't hate the fact  
that it's life we bed on everyday

Don't hate the coach seats you have to sit on

You're in play, still leavin the state

Can't predict my fate, don't hate the methods I use

The weapons I choose, don't hate the minimal dues  
that you have a crew, don't hate the fact

that nobody's whole-heartedly vouchin for you
