Went out round 7 stopped at somebody's
it's all downhill from here
we stood at shelter two and listened to the trees
it's all downhill from here
went to Arlington Hardware to buy some electrical tape
it's all downhill from here
you went to Tulsa and I'm gone away
it's all downhill from here
it's all downhill from here
it's all downhill from here
we keep on climbing but we never find the top
we keep on climbing but we never find the top
we keep on climbing but we never find the top
it all downhill from here
