Few care about environment in the USA  
Propaganda controls,  
Pollutants in the atmosphere,  
Malathion in our air  
Mutant race developing,  
Hypodermic sewage on shorelines,  
Oil spills in the sea  
Marine life disappears,  
Extermination we contend,  
Vanishing life we see  
Reality's nightmare,  
Environment litigations,  
Hazardous contamination  
Lost cause situation,  
Power plants pump the waste,  
Dump sites overwhelm  
Wildlife deteriorating.  
Cars polluting / All our air  
Smog fills / Our lungs to hell  
Politicians / Don't really care  
End this crisis  
They never will.  
Rapid pollution of the sea  
Sewage falling out of greed

Global warming! Nationwide situation  
Harmful waste! Nuclear cultivation  
Garbage overflows...  
...From land to shining sea  
We deserve what we create,  
In the Land of the Free  
Toxic waste, generation harvest  
Carbon dioxide in the air  
That we breathe  
In the air that we breathe!

Global warming! Nationwide situation  
Harmful waste! Nuclear cultivation  
Nitrogen oxide, cancerous affliction  
We deserve what we create  
In the Land of the Free

Ultra violet / Radiation  
Groundwater / Contamination  
Oil refineries / Spew the carbons  
Lung damage  
Ozone depletion!

Global warming...  
...Making profits all they care  
Global warming...  
...Clean air act is not enough
