"Finished With You"

Visit "[Finished With You](#)" on MotoLyrics.com

look at you - you're such a sight to see
do you know what you think or who you want to be?
you bring me down with negativity
you've got a lot to say, but no credibility

[Chorus]

do you think you left me broken hearted?
you should know that it's not so easy to do
i always try to finish what i've started
all i know is that i'm finished with you
i bet you'll tell me what you're thinking of me
but i don't care, i know who i want to be
your opinions lack sincerity
as you try to stay true to your stupid philosophy

[Chorus]

i think i finally figured it out
and now i know what you're all about
you've opened my eyes and now i can see
with friends like you, who needs enemies?

[Chorus]
