Laugh and talk about the one you love to death  
Make me think about the one I hate to miss  
With miles in between us and nothing but time  
On my hands with nothing but a trace of what was mine  
From the start I know, let nothing ever come between  
A lovesick mind and just how far to go  
Before you tell me once again

Baby you, took too long to find me

Living in a world where love is king  
I lost my Baby to a diamond ring  
She bought the package with a hook and a line  
Same old song but the beat is just a bit out of time  
From the start I know, let nothing ever come between  
A lovesick mind and just how far to go  
Before you tell me once again

Baby you, took too long to find me

Now it's coming down to mice and men  
And I'm not sure where I stand  
Love minus one leaves me undone  
I've had just about all I can stand

Baby you, took too long to find me

Now it's coming down to mice and men  
And I'm not sure where I stand  
Love minus one leaves me undone  
I've had just about all I can stand  
Baby, you took too long to find me
