

Early November

"Baby Blue"

Visit "[Baby Blue](#)" on MotoLyrics.com

It's a faster, growing greed
Flows through these leaves
I have, I try, I guess we'll be alright

I do try, I don't know why
For you brought me better nights
A beautiful, baby blue
Sky that's looking up at you
Now watch it fade away

[Chorus:]
But it's okay
We'll come around
When nights like this are never ending
I tried so hard to make this perfect
You and I somehow
We can't see eye to eye together
We always knew that you were better

I know you want it all
And you got me
Sorry I never was everything you ever dreamed
But kept at bay, for just in case that day

[Chorus]

I don't want you to love me anymore

With my bags packed, I'm ready to go
But nothing's ever hurt so much for me
To let you go
To let you go

My bags packed, I'm ready to go
But nothing's ever hurt so much for me
To let you go
To let you go
