[Guest vocals By Ken Vasoli From The Starting Line]

It's not fair
To find you there
Waiting on
I don't care
I care
Way too much

Wait and see
That you are inside of
The places that you knew you loved
The only time you'll ever trust
You are done
It's all been done

It's not fair
to find you there
waiting for me
I dont care
because I care way too much

Wait and see
That you are inside of
The places that you knew you loved
The only time you'll ever trust
You are done [2x]

It's all been done [6x]
