these eyes they're strongly covered in disguise  
they're waiting on the real time again  
you'll see that no one knows for sure

for all of this  
im better of without you  
do you regret so  
your loneliness

this ride is drifting slowly to the side  
we're swerving off the road  
going past the cones that warns us from the start

for all of this  
im better of without you  
do you regret so  
your loneliness

(everyday goes, everynight goes)  
on and on we sing this song  
the entire day thats oh so long  
every night we sing this song for you

for all of this  
im better of without you  
do you regret so  
your loneliness

for all of this  
im better of without you  
do you regret so  
your loneliness
