

Early November "Make Believe"

Visit "[Make Believe](#)" on MotoLyrics.com

is it enough
to believe that you are real
sometimes it gets tough
believing in myself

well is it just me
it could be that i'm always wrong
i hear it in my head
twisting and lies
till we're sure i'm wrong
but i forget
how you broke my heart
or how you find yourself
untimely falling for someone else dear
and every time
something like this happens
you always make it seem
like i did something wrong to you

well guess what
i can't do this anymore
so next time
you're thinking about telling me
what i do wrong
think about
all i let myself
forget

why can't you
have me
and be happy
at the same time
