

Early November "Sesame, Smeshame"

We find our, our way through this
Knowing
The actors, who play our friends,
They always win

So come in, we're all inside of nothing
The place where we live our lives
And take all you want
Cause we ain't got nothing to lose, we're always
looking on

The heart is to pretend that we never quit
So the actors, who play ourselves
Say they never cared

So come in, we're all inside of nothing
The place where we live our lives
And take all you want
Cause we ain't got nothing to lose, we're always
looking on
