Green light says go, red light says no  
Hold tight here goes my baby Louise  
Gotta catch your green light, yeah yeah yeah  
Come on  
Gotta catch your green light, yeah yeah yeah  
I love my Jane, she's sweet as rain  
The sun don't shine, her green light's mine  
Gotta catch your green light, yeah yeah yeah  
Come on  
Gotta catch your green light, yeah yeah yeah  
La la, la la, la la, la la ...  
Gotta catch your green light, yeah yeah yeah  
Come on  
Gotta catch your green light, yeah yeah yeah  
She's high, she's low, hold tight, love grows  
Red light says no, she comes and goes  
Gotta catch your green light, yeah yeah yeah  
Come on  
Gotta catch your green light, yeah yeah yeah  
Green light says go - go  
Green light says go - go

Oh, I gotta catch your green light

Gotta catch your green light ....

Red light says no, red light says no

Green light says go, green light says go

Oh yes, I gotta catch your green light

Gotta catch your green light

I said my light says go

I said your light says no

I said my light says go

I said your light says no

Oh yes, I got to catch your green light ....
