If silence can heal,
I know it can kill.
I feel it's caress.

Consider your lies
In light of what's real.
Yea-e-e, I could care less.

Forget all you know,
Just get up and go.
Save all you can.

Don't want you to see
When pain overflows
Yeah, you're not my friend.

I still think that we were meant to be
Ooh-oh, lie to me now.
I still dream that you were meant for me
Yeah, why would you doubt?

I don't wanna know,
No, I don't wanna hear
Hey, your smart alibis

I don't wanna feel
This heartache and fear
I don't wanna wait (anymore)
I don't want to be nice

And I still think that we were meant to be
(We were destined to be)
Ooh-oh, lie to me now.
I still dream that you were meant for me
(I was made for your love)
Hey, why would you doubt?

I'm not asking for sympathy (oh)
Cause I know what you need me to say
Thanks for what you have given me (Take it back)
I will always remember you watching me walking away,

hey

(I remember all)
Aren't you loving watching me now?
(I remember all)

I still think that we were meant to be
(We were destined to be)
Ooh-oh, lie to me now.
I still dream that you were meant for me
(I remember all)
Yeah, why would you doubt?

Consider your lies
In light of what's real.
Yeah, I could care less.
