He sits in a corner afraid of his father  
Won't talk to his mother at all  
There's no opposition  
He's made his decision  
The writing is on the wall

But he lives with so much pain  
And he's not the only one to blame  
For all the fear he feels inside  
He can't possibly hide

Can you see that he's running away  
Through his shadow follows  
So he looks to the sky and he prays  
For the moment his eyes will go blind  
Can you see that he's running away  
Through his shadow follows  
The choice is his life, its made him go blind  
Never going home

To the place he feels alone  
Everyone is watching him  
So he locks himself in his crowded room again  
And he knows he feels the pain  
He's not the only one to blame  
For all the fear he feels inside  
He can't possibly hide

Can you see that he's running away  
Through his shadow follows  
So he looks to the sky and he prays  
For the moment his eyes will go blind  
Can you see that he's running away  
Through his shadow follows  
The choice is his life, its made him go blind  
Never going home

But in this moment he doesn't know it  
Your still calling out his name  
He just keeps fighting  
Still denying things that will ever change
