I hear 'em laughing on cloud 9

In a world so happy just above mine

No one's leaving like you left me

The got each other got all they need but

Here on cloud 8

Lotta nothing's going on

I'm just drifting day to day

Out here on my own

While up on cloud 9

I hear 'em party all the time

They don't hear my heart break

Down here on cloud 8

We almost made it up where they are

But losing your love

Brought me down hard

Now I'm just hanging, just getting by

Where expectations aren't that high

Here on cloud 8

Lotta nothing's going on

I'm just drifting day to day

Out here on my own

While up on cloud 9

I hear 'em party all the time

They don't hear my heart break

Down here on cloud 8

While up on cloud 9

I hear 'em party all the time

They don't hear my heart break

Down here on cloud 8

The don't hear my heart break

Down here on cloud 8
