Well I hoped and prayed, loved you from afar  
I cried, I dreamed, I wished on every star  
But nothin' I'd do got me closer to you  
So I locked all my feeling inside  
Then one night across a crowded room  
You looked my way, your eyes held something new  
You walked right up to me and smiled tenderly  
And your words came as such a surprise  
Well how was I to know  
You never let it show  
What a beauty like you might see  
In a poor boy like me  
How could I have seen  
You walk out of my dreams  
Shine your light on my sleepin' heart  
And into my soul  
How was I to know  
You took my hand and led me out the door  
We talked and we laughed  
'Bout all the times before  
When two lonely people so much in love

Passed like ships in the night  
Well how was I to know  
You never let it show  
What a beauty like you might see  
In a poor boy like me  
How could I have seen  
You walk out of my dreams  
Shine your light on my sleepin' heart  
And into my soul  
How was I to know  
How could I have seen  
You walk out of my dreams  
Shine your light on my sleepin' heart  
And into my soul  
How was I to know  
Oooh  
Oooh  
Oooooooooh Oh Oh
