### "If Youve Got Love"

Visit "[If Youve Got Love](#)" on [MotoLyrics.com](https://MotoLyrics.com)

If you've got faith

And you believe in what you're living for

You can stand your ground when the devil's at your door

And a little hope can help you when the road is getting rough

But there's nothing quite like life if you've got love

If you've got love you can move a mountain

A little bit further down the line

You can do it all at once or one rock at a time

You can turn an ordinary picture into a priceless work of art

It's what you can do if you've got love in your heart

Now there's nothing like a real good friend

To tell your troubles to

But there's just so much a real good friend can do

'Cause it takes another's touch to chase the darkest blues away

If you've got love you've got what it takes

If you've got love you can move a mountain

A little bit further down the line

You can do it all at once or one rock at a time

You can turn an ordinary picture into a priceless work

of art

It's what you can do if you've got love in your heart

If you've got love you can move a mountain

A little bit further down the line

You can do it all at once or one rock at a time

You can turn an ordinary picture into a priceless work  
of art

It's what you can do if you've got love in your heart

It's what you can do if you've got love in your heart

(If you've got love) you can move a mountain

Further down the line

You can do it all at once or one rock at a time

You can turn a picture into a priceless work of art
