"Far From The Edge"

I can see you walking
I can hear you talking
But in the end
I'm alone again...

Far from the edge I'm going
I'm holding my last breath
So many left unsaid
If you could only see me
I'm lying in your hands
You'll never understand

Live or Dead
Can you find me the answer?
I beg

I can see you walking
I can hear you talking
But in the end
I'm alone again
With my eyes of fire
Burning my desire
And in the end
I'm alone again

Far from the edge
I'm holding my last breath
I feel so close to death
If you could only hear me
I'm crying while you stand
I'm dying feel my hand
