HÃ©loÃ-se  
Now and always  
Together we'll be  
We'll turn space upside down  
Call time a clown  
Live faithful and free  
Now, now and always  
Now

Abelard  
Wherever you go  
I'll be at your side  
No ocean's too wide  
No horizon's too far  
We'll conquer a star

Both  
You're my rainbow of light  
You're my hands, you're my sight  
You're the only way that I know  
Abelard  
You're the mountain I seek  
You're the stars at the peak  
Both  
You're the water that I'm thirsting for  
Ever more

HÃ©loÃ-se  
Wherever you go  
I'll be at your side  
No ocean's too wide  
No horizon's too far  
We'll conquer a star

Both  
Now and always  
Always  
Now and always
