HOOK:

Make it my business to give them the gospel

Feel like quitting

It's once in a while

IZ-REAL VERSE:

They wanna know how I cope

no hoax in the lord of host lies hope no joke

Â'til I croak gotta hold to the truth never fold

hearts are cold dro blow's girls drop get low

from the block and over seas in every scene you can
see

man seeks for a savior in need to be free

intercede then preach humble please teach

sound belief in peace preach man's chief priest

It's ya duty in passing you can't let life pass them if
Christ is ya passion

Christian stay active in words and in action

stay on the grind till the truth reaches masses

fulfill commission Christian you on missions

listen aint no slipping distant from sin you different

I charge all believers who love are redeemer to let men
see Jesus.

HOOK:

Make it my business to give them the gospel

Feel like quitting

It's once in a while

IZ-REAL VERSE:

In doing good don't stop though weary don't quit

there's a gift you've been given neither add nor
strip

no twist or shift share the script likes it's meant in the
mix

don't mix man's wounded help stitch switch

there's a picture that's painted of Christ in his fame
and saints shouldn't stain this

you blameless in the field remain anxious

to share how Gods love thru his son made
arrangements

that's the beauty of missions we tell of redemption
disciple new Christians

we play are position daily go fishing

trusting Gods wisdom while serving in trenches

impose on them kingdom truth nothing but heavens
view

strictly what's biblical staying invisible

killing the physical modeling Christ 'til the two look
identical

HOOK:

Make it my business to give them the gospel

Feel like quitting

It's once in a while

IZ-REAL VERSE:

Christ of course is he king of our hearts
is there change in our walk are we grieved with our faults
at the sight of the cross do we value the cost
convinced of the call are we after the lost
have we mastered the art simply playing the part
with traditional smarts have Christians gone soft
in attempt to reach dark
are we no longer salt have we traded are light in exchange to be off
now ain't knocking revival or choir recitals it's true they are vital
I'm down with a circle of friends and the Bible
but after we build is there growth as disciples
after emotional hype are we living upright can men visualize Christ
surrendering time and our talents despite
what the world has to offer we offer them Christ.
HOOK:
Make it my business to give them the gospel
Feel like quitting
It's once in a while
