The Darkside is coming, now nothing is real,  
She'll never know just how I'll feel  
From out of the shadow's she walk's like a dream  
Make me feel crazy, make me feel so mean.

Nothing's gonna save ya from the love that's blind.  
Slip through the darkside and cross that line.

On the darkside, oh yeah..  
On the darkside, oh yeah..

Darkside is coming, now nothing is real,  
She'll never know just how I'll feel  
From out of the shadow's she walk's like a dream  
Make me feel crazy, make me feel so mean.

Nothing's gonna save ya from the love that's blind.  
Slip through the darkside and cross that line.

On the darkside, oh yeah...  
On the darkside, oh yeah...

(sax solo)

Nothing's gonna save ya from the love that's blind.  
Slip through the darkside and cross that line.

On the darkside, oh yeah...  
On the darkside, oh yeah...

On the darkside, oh yeah...  
On the darkside, oh yeah..
