[Chorus]

I came to you my china eyes
You look at me
I knew that the days are long and cold
Without you by my side

I see your face I melt inside
The thoughts of you
I know that I can't no longer hide
My love for china eyes

Please come with me my china eyes
Let's share our joys in paradise
You're the one that I will love
Till the end of my life
I came to you my china eyes

[Repeat Chorus]

Please love now my china eyes
Just one kiss and I could die
You're the one my heart desires
I love you china eyes
I came to you my china eyes
