Well I've been on the wrong side of the front door too  
often  
Watched you slam it in my face  
Well I may learn the hard way I'm not a soft one tonight  
I'm standin' in your place  
Cause you taught me a lot about leavin' won't even  
have to try  
So here's your lesson in heartache and grievin' and a  
chance for you to cry  
Cause it's time you learned about goodbye  
[ guitar - steel ]  
I've stood behind you and I've laid beside you but I  
won't do that anymore  
Cause I'm tired of bein' just here when you want me  
tonight I'm walkin' out that door  
Cause you taught me...  
Yeah you taught me...  
Yeah you taught me...  
It's time you learned about goodbye it's time you  
learned about goodbye
