They love to see you smile
Love to dance a while
Lets get as high as a kite cause Iâ'm falling
Take me from the floor

I look in the back
I call from the start
And there you are
There you are

Theyâ'll hold a light out for you
Hands in the sky to show you
Lets get as high as a kite cause im falling
Take me from the floor

I look in the back
I call from the start
And there you are
There you are
In your honour itâ's in your honour
I still canâ't see the world

In your honour itâ's in your honour
I still canâ't see the world

Like we used to when we knew you
Like we used to when we knew you
Like we used to when we knew you
Like we used to when we knew you
Like we used to when we knew you

Look in the back
I call from the start
And there you are
There you are

In your honour itâ's in your honor
I still canâ't see the world
