We split the world
We split the world you and me
IÂ'll take the south
You can do what you want with the rest
Cause this is in our best interest
This is for the best?

DonÂ't close your eyes
I canÂ't lay here till the morning comes
DonÂ't close your eyes
IÂ'll be gone in the morning
Gone in the morning

We split the world
We split the world you and me
IÂ'll take the south
You can do what you want with the rest
Cause this is in our best interests
This is for the best?

DonÂ't close your eyes
I canÂ't lay here till the morning comes
DonÂ't close my eyes
IÂ'll be gone in the morning
Gone with the moring

The seasons change but we all stay the same
The seasons change but we all stay the same
The seasons change but we all stay the same

Close your eyes
I cant lay here till the morning comes
Close my eyes
IÂ'll be gone in the morning
Gone with the morning

The seasons change but we all stay the same
The seasons change but we all stay the same
The seasons change but we all stay the same
