I like this groove (ah yeah, ay yeah)
Yeah, I like this groove
This jame here is for the ladies
From all us fellas, E.Y.C.
That's the way you work it
So there it is, yo, smooth it out

Tell me baby is it me that's always on your mind
Anticipating on this night that we are gonna find
ROMANCE
Let's take a chance
To enhance a situation, this is not infatuation

*

The way you work it baby
Tonight is the night for you and me
The way you work it mamma
Tonight we're going round in circles
The way you work it baby
Tonight we're gonna have to see
The way you work it mamma
Tonight, tonight (ah yeah, ah yeah)

Here we go
Baby on this special night, there's no reason to hide
The way you work it girl, I really want to be inside
YOUR LIFE
Let's take a chance
To enhance a situation, this is not infatuation
Tell me

Why, why
Why we wastin' so much time
Tonight, me and you
Cause girl we know just what to do

Show me the way
The way you work it, I must say
Let's do it right
Just let it go and show me

(* Repeat 2 times)

Let's work! Ah, yeah
Let's work!
Let's work! Ah, yeah
Let's work!

Oh why, why
Why we wastin' so much time
Tonight, me and you
Cause girl we know just what to do
Show me the way
The way you work it, I must say
Let's do it right
So won't you come and show me

(* Repeat
