(Edgar- o opening)

Baby I am coming tonight get ready for me
Casue I'm looking to have a little fun
No no conditions just the dark and you
And me and a bite don't be afraid
I promise I'll be gentle and be polite
As long as you can let

(Chorus 3x)

Let me be your vampire
I'm gona lay you down on my bed
I wanna suck and bite on your neck
Let me be your vampire eh eh eh (7x)

(Edgar- o verse 2)

I'm gona suck the blood of your brain
Do all the things that you can't explain
Leave you confuse like what's my name
I'll do it so good that I'll pop off a vein
My bite is so hard that it's hard to maintain
Calm, I'm a freak in the night
Get a little close if you really want a bite
I'll rip off your close in the midle of the night
Make you go down town when nobodys around
Hold it for me don't let it touch the ground
Give you the nightmares that makes you come
Back to me and ima gurantee
Leave you cold like subzero degree
Them other vampires got nothing on me
I'm worst than a dracula I'm worst than a beast
I'm coming tonight so please let me be

(Chorus 3x)

Let me be your vampire
I'm gona lay you down on my bed
I wanna suck and bite on your neck
Let me be your vampire eh eh eh (7x)

Let me be your vampireeeeeeee
Let me be your vampireeeeeeee
Mmmmmmmmm

(Edgar- o verse 2)

I wanna be your vampire
I wanna be your desire
I want you to be my goddess I'm the ruler
Of this empire
Aint nobody gona tell you to be my slave
Cause baby that's not require
All you gotta do is fly with me
Cause I really wanna take you higher
And your mother wants you to come home
She'already knows ima give you that fire (that fire)

(Chorus 3x)

Let me be your vampire
I'm gona lay you down on my bed
I wanna suck and bite on your neck
Let me be your vampire eh eh eh (7x)

Your vampire
Your vampire
Your vampire
I wanna be your vampire
So let me be your vampire
I am coming for you tonight
I am coming to have a bite
I am coming for you tonight
Cause that's when the freaks come out and bite
I am coming for you on full moon
I might be coming late just to come bite you
I am coming for you tonight
Cause that's when the freaks come out and bite

(Chorus 3x)

Let me be your vampire
I'm gona lay you down on my bed
I wanna suck and bite on your neck
Let me be your vampire eh eh eh (7x)
