"Landslide"

I think its time I wake up-to another plan
Not a typical day for a typical man
Criticized by many-just a brick in the wind
Had my taste of plenty Lord-and been there ever since

(Chorus 1) I'm numb-to everything around me
How long-check out time is now days

Standin' on a Landslide-a hundred miles long
Never even thought what lies beyond
A little bit of lucky-a little bit of need
A little bit of everything-has brought me to my knees

(Chorus 2) I'm numb-to everything around me
To much-has never been enough Dave
I'm numb-to everything around me
How long-check out time is now days
-solo-

(repeat Chorus 2)

Check out time is now days
Check out time is now days
Check out time is now days
Check out time is now days
